

The Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554

Dear The Federal Communications Commission,

For whatever good it might serve, I simply wanted to add my voice to the call for adoption of the "Fair Share Plan" as a solution to current concerns with the Universal Service Fund (USF). As a senior citizen who relies upon a pay as you go cell phone plan for use only in emergencies, I enjoy this arrangement only because of the price. Any plan that would increase that expense would simply render it a luxury I can ill afford.

Under the flat fee plan you are considering, people like me who make few long distance calls would, as I understand it, pay the same as people or businesses that make many calls. I believe it would be unfair to charge low-volume and residential customers the same fees as high-volume residential or business customers.

I urge you to keep the USF fair, and adopt the Fair Share Plan. Thank you, and best of luck in your new position.

cc: Marlene Dortch, Secretary
